

Breaks Up Sludge in Drain Fields

Septic Blaster

Restores Output in Failing Drain Fields
Blasts Out Blockages and Masses
Breaks Down Fats, Oils, & Greases

Removes Blockage in Drain Fields

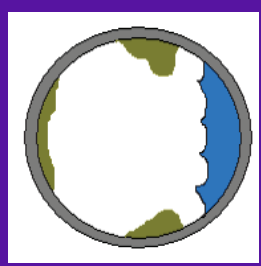

Breaks Up Solids in Drain Fields

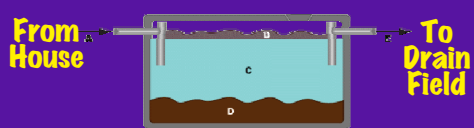

Breaks up Biomats
Allows Water to Drain

Dissolves Fats, Grease, & Oils
Breaks Up Blockages & Sludge

How Drain Field Pipes Clog with Solids

FOG Acts Like Glue Collecting Solids, Paper & Debris that Build Up and Plug Drain Field Pipes

- A. Water from House Flows into Septic Tank
- B. F.O.G. Floats on Water (Fats, Oils, & Grease)
- C. Water in Septic Tank
- D. Sludge in the Septic Tank
- E. Water & F.O.G. Exits Septic Tank to Drain Field

Never Pump Your Tank Again!

Why Septic Systems Fail

Fats, Grease & Oils Acts Like Glue to Trap Waste Solids & Paper Causing Sludge to Form
Forms Coating in & Below Drain Field Pipes
Coating Prevents Water from Seeping into Ground
Waste is Pushed up to Surface, Drain Field Clogged

Septic Blaster Removes Sludge in Drain Fields

Septic Blaster Works Immediately on Contact
